

STEM ALL STARS

MISSION

STEM All Stars is an international nonprofit organization committed to eliminating gender differences and breaking the barrier of stereotypes by running a STEM competition, clubs, and events for girls around the world to make them our future global leaders.

COMPETITION

The STEM All Stars international competition is a great way to improve innovative skills and find your particular interest in STEM for girls in grades 3-8. Awards are given at the STEM All Stars festival in late spring.

CLUBS

The STEM All Stars clubs provide a platform for students to have fun with STEM while bringing their experiment in their daily books to life!

EVENTS

STEM All Stars organizes many events throughout the year to advocate STEM for women and to provide an opportunity for students to explore STEM through STEM camps, fields trips, workshops, and more. Events are free!

WHO WE ARE

We are concerned about empowering girls throughout their learning years by making available an intriguing a STEM research competition, clubs, and events to help them improve their self-confidence. We use our funds and donations for our activities each year, and to provide STEM equipment (computers, projectors, tool kits for hands-on experiments, etc.) to girls around the country, including underserved areas.
